HP80, HP100, HP150 and HP210 Series Bimetallic Steam Traps

Description

Spirax Sarco's HP80, HP100, HP150 and HP210 bimetallic steam traps are made of forged steel, and designed for draining high pressure, high temperature steam lines and processes.

These steam traps, which are specially designed for HP steam, have a reinforced stainless steel insert within the body and can be repaired inline. They operate with no loss of steam, and quicky drain air, non-condensate gases and large quantities of cold water on start-up. Normally open in the event of failure, they have a check valve, a built-in strainer screen and an external device for adjusting the discharge temperature of the condensate.

Sizes and pipe connections

1/2", 3/4" and 1" socket weld to ANSI B 16.11 or butt weld to ANSI B 16.25

Certification

This product is available with certification to EN 10204 3.1.B All certificates must be requested at the time of ordering.

Local regulation may restrict the use of this product below the conditions quoted. Limiting conditions refer to standard connections only. In the interests of development and improvement of the product, we reserve the right to change the specification.

Steam Traps

The spare parts available are detailed below. No other parts are supplied as spares.

Available spare

| Bimetallic assembly kit | 2, 3, 4, 7, 10 |
|-------------------------|----------------|
| | |

How to order spares

Always order spares by using the description given in the column headed 'Available spare' and state the size and model of the bimetallic steam trap.

Example: 1 — Bimetallic assembly kit for a 1" Spirax Sarco HP80 bimetallic steam trap.

Recommended tightening torgues

| ltem | | \bigcirc | in mm | Ft. / Lbs. |
|------|--------------|------------|-------|------------|
| 3 | | 36 A/F | | 88.51 |
| 6 | | 21 A/F | | |
| 9 | HP80 | 24 A/F | | 88.51 |
| | HP100 | 24 A/F | | 118 |
| | HP150, HP210 | 30 A/F | | 147.5 |
| 11 — | HP80, HP100 | 41 A/F | | 59 |
| | HP150, HP210 | 55 A/F | | 103.2 |
